Notes to Consolidated Financial Statements
(Unaudited – Prepared by Management)
(Expressed in United States dollars)

Three months ended January 31, 2004 and 2003

1. Significant accounting policies:

These consolidated financial statements of America Mineral Fields Inc. (the “Company”) do not include all disclosures required by Canadian generally accepted accounting principles for annual financial statements, and accordingly, these consolidated financial statements should be read in conjunction with the Company’s most recent annual consolidated financial statements. These consolidated financial statements follow the same accounting policies and methods of application used in the Company’s annual audited consolidated financial statements as at and for the year ended October 31, 2003.

2. Mineral properties:

Amounts deferred in respect of mineral properties consist of the following:

2003	DRC Kolwezi	Angola	Zambia Solwezi	Total
Deferred, October 31, 2003	\$ 9,763,808	\$ 719,595	\$ 1	\$ 10,483,404

Travel	130,857	64,741	-	195,598
	666,645	182,327	-	848,972
Balance, January 31, 2004	2,430,453	901,922	1	3,332,376

(a) Kolwezi:

During the first quarter of 2004, the Company’s 100% owned subsidiary, Congo Mineral Developments Limited (“CMD”), finalized with both the Government of the Democratic Republic of Congo (“GDRC”) and La Générale des Carrières et des Mines (“Gécamines”), the state-owned mining company, a Contract of Association governing the terms of the Kolwezi Tailings Project (the “Project”) and the ownership and management of Kingamyambo Musonoi Tailings S.A.R.L. (“KMT”), the company to be incorporated in the Democratic Republic of Congo to own the mining title to the tailings and develop the Project.

AMERICA MINERAL FIELDS INC.

Notes to Consolidated Financial Statements
(Unaudited – Prepared by Management)
(Expressed in United States dollars)

Three months ended January 31, 2004 and 2003

2. Mineral properties (continued):

(a) Kolwezi (continued):

The Contract of Association recognizes the framework agreement entered into by the Company in February 2003 for the International Finance Corporation (“IFC”) and the Industrial Development Corporation of South Africa Limited (“IDC”) to participate in the Project. Under the framework agreement, each of IFC and IDC has an option to acquire from the Company up to 10% of the Project on a farm-in basis. The price of the farm-in will be related to the accumulated expenditures of the Company and its affiliates up to the time of the exercise of the option. If either of IFC or IDC does not exercise its options, the other will have a right of first refusal over that option.

Under the Contract of Association, the Tailings Exploitation Rights to the Project are to be transferred to KMT. CMD is to own 82.5% of KMT and Gécamines and GDRC are to own 12.5% and 5.0% respectively. Two payments totaling \$15,000,000 will be made by KMT to Gécamines as consideration for the Tailings Exploitation Rights. The first instalment of \$5,000,000 will be made at the time of the transfer of the Tailings Exploitation Rights and the second instalment of \$10,000,000 will be made following the completion of all financing arrangements for the Project. The \$15,000,000 is to be provided to KMT by CMD and/or IFC and IDC (or other participating parties) based on their pro rata ownership of the Project excluding Gécamines and GDRC’s percentage ownership. Gécamines is to receive an annual dividend of the greater of its ordinary dividend and 2.5% of free cash flow (as defined) for each year from start-up until senior debt and subordinated loans have been fully reimbursed. Thereafter, Gécamines will be entitled to an annual dividend based on 10% of the average price realized for cobalt sold in a year in excess of \$10.00 (adjusted for inflation) per pound in addition to any ordinary dividend received by Gécamines, providing that ordinary dividends are paid in such year.

CMD and the participating parties are to complete feasibility studies, carry out an environmental impact study, draw up an environmental management plan and obtain commitments for financing the Project, all within a time period of three years and six months from transfer date of the mining rights.

The Contract of Association has received approval from the Boards of Directors of the Company and Gécamines and approval by the Council of Ministers of the GDRC and is in the process of being formally executed. As part of this process, KMT will be incorporated and the Tailings Exploitation Rights transferred to it.

Subsequent to the end of the quarter, the Contract of Association was signed by all parties and KMT was incorporated. The Company now expects that the Tailings Exploitation Rights will be transferred to KMT in the near future.

Balance, January 31, 2004	69,491,411	\$ 65,955,452

(i) During the first quarter of 2004, the Company completed a private placement of 3,500,000 common shares at a price of CDN\$1.60 per share, for gross proceeds of CDN\$5,600,000.

AMERICA MINERAL FIELDS INC.

Notes to Consolidated Financial Statements
(Unaudited – Prepared by Management)
(Expressed in United States dollars)

Three months ended January 31, 2004 and 2003

4. Share capital (continued):

(b) Share purchase warrants:

Warrants outstanding at January 31, 2004:

Balance, October 31, 2003	Issued	Exercised	Balance, January 31, 2004	Exercise price	Expiry date
3,550,000	-	-	3,550,000	CDN\$3.50	October 4, 2004 or earlier in certain circumstances
3,300,000	-	(3,300,000)	-	CDN\$0.75	February 2, 2004
1,260,600	-	(510,600)	750,000	CDN\$1.10	September 25, 2004
1,647,836	6,974	-	1,654,810	CDN\$0.75	February 12, 2008 (note 4(b)(i))
9,758,436	6,974	(3,810,600)	5,954,810		

- (i) The number of warrants granted to each of the IFC and IDC (see note 2(a)) increased during the quarter by 6,974 as a result of the exercising of share purchase entitlements outstanding at February 12, 2003. A further 325,330 warrants would be issued were all share purchase entitlements existing at February 12, 2003 and still outstanding at January 31, 2004 to be exercised in full.

Warrants to purchase 333,054 shares for each of IFC and IDC have vested. The remaining warrants vest in two tranches upon reaching certain milestones in the Project. The fair value of the warrants is being recorded upon vesting using the Black-Scholes option pricing model. The warrants vested during the three months ended January 31, 2004 have an estimated value of \$2,980 assuming an expected life of 4.25 years, volatility of 132%, no dividend yield, and a risk free interest rate of 2.93%. This fair value amount is included in consulting costs deferred in mineral properties and in contributed surplus.

- (ii) Subsequent to January 31, 2004, the remaining 750,000 warrants expiring September 25, 2004 were exercised for proceeds of CDN\$825,000.

(c) Share options:

Options outstanding, October 31, 2003	2,931,000
Granted	650,000
Cancelled / expired	(25,000)
Exercised	(155,000)
Options outstanding, January 31, 2004	3,401,000

AMERICA MINERAL FIELDS INC.

Notes to Consolidated Financial Statements
(Unaudited – Prepared by Management)
(Expressed in United States dollars)

Three months ended January 31, 2004 and 2003

4. Share capital (continued):

(c) Share options (continued):

As at January 31, 2004, 2,988,000 options were vested. Options vest at various dates over their period of grant.

On November 24, 2003, the Company granted 610,000 options exercisable at CDN\$1.50 per share expiring November 23, 2008. A total of 430,000 options vested immediately, with the remaining amounts vesting one year from the date of grant.

On January 21, 2004, the Company granted 40,000 options exercisable at CDN\$1.40 per share expiring January 20, 2009. A total of 20,000 options vested immediately, with the remaining amounts vesting one year from the date of grant.

During the quarter, 25,000 options with an exercise price of CDN\$0.60 expired unexercised.

Also during the quarter, 115,000 options with an exercise price of CDN\$0.60 were exercised conventionally. There were also two separate cashless exercises of options during the quarter, 25,000 options with an exercise price of CDN\$0.60 were exchanged for 13,101 shares, and 15,000 options with an exercise price of CDN\$0.60 were exchanged for 7,890 shares. The amount credited to share capital on the exercise of options is the sum of the cash proceeds received plus amounts previously credited to contributed surplus for services received that were charged to compensation cost in respect of the options exercised.

For the 650,000 options granted during the quarter, the Company has recorded stock-based compensation expense of \$437,747, including \$410,321 for the options that vested immediately, and \$27,426 for the amortization of the options that vest over time. The fair value of each option grant has been calculated using the Black-Scholes option pricing model with an expected life of 3.5 years, volatility of 133%, no dividend yield and a risk free interest rate of 2.23%.

In addition to the expense recorded on the options granted during the quarter, the Company recorded stock-based compensation expense of \$24,918 as a result of the vesting of options granted in the year ended October 31, 2003.

(d) Contributed surplus:

Balance, October 31, 2003	\$ 2,095,310
Stock-based compensation (note 4(c))	462,665
Granting of IFC and IDC warrants (note 4(b)(i))	2,980
Transferred to share capital on exercise of stock options for cash	(74,900)
Transferred to share capital on cashless exercise of stock options	(32,796)
<hr/>	
Balance, January 31, 2004	\$ 2,453,259

5. Segmented information:

The Company's operations are primarily directed towards the acquisition, exploration and development of mineral resource properties and represent a single reportable segment. All material revenues of the Company are attributable to the corporate head office.

Property, plant and equipment, including mineral properties and mineral property evaluation costs, by geographic area are as follows:

	January 31, 2004	October 31, 2003
Capital assets by geographic area:		
Democratic Republic of Congo	\$ 6,776,524	\$ 6,103,447
Angola	901,922	719,595
Zambia	1	1
United Kingdom	40,943	17,207
	\$ 7,719,390	\$ 6,840,250

AMERICA MINERAL FIELDS INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS

The following discussion and analysis should be read in conjunction with the Consolidated Financial Statements of the Company for the three month periods ended January 31, 2004 and 2003 and related notes (the "Consolidated Financial Statements"). The following discussion and analysis highlights significant changes since the discussion and analysis in the 2003 Annual Report, which should also be referred to for additional information. **Except as otherwise noted, all dollar amounts contained in this discussion and analysis and the Consolidated Financial Statements are stated in U.S. dollars.**

Results of Operations

The Company incurred a net loss for the three months ended January 31, 2004 of \$713,881, or \$0.01 per share, compared to a net loss of \$471,968, or \$0.01 per share, in the three months ended January 31, 2003.

The results for the three months ended January 31, 2004 reflect the following factors:

- Administration expenses have increased compared to the first quarter ended January 31, 2003 due principally to increased levels of investor relations costs, office and administration costs, regulatory authority filing fees, and stock-based compensation. These increases have been partly offset by reductions in professional fees and in travel and accommodation costs.
- Investor relations costs were higher in the quarter ended January 31, 2004 because the Company devoted more resources to investor relations during the first quarter of 2004 in order to publicize the progress made on the Kolwezi project, as well as to profile the Company's other projects. A substantial number of warrants and options were exercised during the quarter, and near the end of the quarter the Company successfully completed a private placement for gross proceeds of CDN\$5,600,000.
- The increased activity of the Company during the first quarter of 2004 also contributed to the rise in office and administration costs, but the increase was primarily the result of the much weaker US\$ as many of these costs are incurred in £ sterling. The increase in regulatory authority filing fees is also consistent with the increased activity, as well as the fact that the Company is now listed on the London AIM exchange in addition to the TSX. In the first quarter of 2003, the Company was listed solely on the TSX.
- The lower professional fees during the first quarter of 2004 compared to the corresponding period of 2003 reflects the costs incurred by the Company in 2003 in preparation for raising equity finance. It also reflects that audit fees for financial year 2003 were accrued at year end, whereas those for financial year 2002 were expensed when incurred in the first quarter of 2003. Travel and accommodation costs decreased as a result of a decrease in the number of non-project related trips versus the same quarter in the previous year.
- During the year ended October 31, 2003, the Company chose to adopt early the new recommendations of the Canadian Institute of Chartered Accountants with respect to the accounting for stock-based compensation and other stock-based payments for employees. The new recommendations were applied prospectively and are detailed in the notes to the consolidated financial statements for the year ended October 31, 2003. As a result of the adoption of the new policy, the Company now expenses the fair value of all options granted to both employees and non-employees. The increase in stock-based compensation in the quarter ended January 31, 2004 versus the corresponding quarter of 2003 is consistent with the increase in the number of options granted during this period. Stock-based compensation expense of \$462,665 was recorded in the quarter ended January 31, 2004 (2003-\$5,699)

- Considerably higher average cash balances resulted in significantly higher interest income during the quarter compared with the corresponding period of 2003. The Company holds some of these cash balances in Canadian dollars and Pounds sterling in anticipation of expenditures to be incurred in these currencies. During the quarter ended January 31, 2004, the US dollar weakened against these other currencies and the Company recorded a foreign exchange gain of \$102,716.
- Mineral property evaluation costs decreased during the first quarter of 2004 compared to the first quarter of 2003, as the Company focused on developing its current projects and properties.

Liquidity and Capital Resources

As at January 31, 2004, the Company had cash and cash equivalents of \$24,529,642, compared to \$19,267,489 at October 31, 2003, and working capital of \$24,055,773, compared to \$18,629,220 at October 31, 2003.

The increases in cash and cash equivalents and working capital as at January 31, 2004, compared to the balances as at October 31, 2003, resulted from the private placement and exercise of warrants and options during the quarter, partly offset by the operating activities discussed above and investments made in the Company's various Mineral Property Projects discussed below.

The private placement was of 3,500,000 common shares at a price of CDN\$1.60 per share, for gross proceeds of CDN\$5,600,000. Also during the quarter, a total of 3,810,600 warrants and 155,000 options were exercised. The net proceeds of the private placement and exercises of warrants and options (\$6,553,929, after share issue costs of \$146,323) will be used to fund the continued development of the Company's African projects, and for general working capital.

The ability of the Company to meet its commitments as they become payable, and the recoverability of amounts shown for mineral properties and mineral property evaluation costs, are dependent on the ability of the Company to obtain necessary financing and on other Exploration and Development and Financing Risk Factors discussed in the Company's 2003 Annual Report.

Mineral Property Projects

As at January 31, 2004, amounts capitalized in respect of mineral properties increased to \$3,332,376 from \$2,483,404 at October 31, 2003, reflecting \$182,327 in costs incurred on the Company's Angola property and \$666,645 in costs on the Kolwezi project.

Capitalized mineral property evaluation cost increased to \$4,341,081 from \$4,331,137 at October 31, 2003, reflecting costs incurred on the Company's Kipushi project.

Kolwezi Project, DRC

During the quarter ended January 31, 2004, the Company's 100% owned subsidiary, Congo Mineral Developments Limited ("CMD"), finalized with both the Government of the Democratic Republic of Congo ("GDRC") and La Générale des Carrières et des Mines ("Gécamines"), the state-owned mining company, a Contract of Association ("CoA") governing the terms of the Kolwezi Tailings Project (the "Project") and the ownership and management of Kingamyambo Musonoi Tailings S.A.R.L. ("KMT"), the company to be incorporated in the Democratic Republic of Congo to own the mining title to the tailings and develop the Project.

The CoA recognizes the framework agreement entered into by the Company in February 2003 for the International Finance Corporation ("IFC") and the Industrial Development Corporation of South Africa

Limited ("IDC") to participate in the Project. Under the framework agreement, each of IFC and IDC has an option to acquire from the Company up to 10% of the Project on a farm-in basis. The price of the farm-in will be related to the accumulated expenditures of the Company and its affiliates up to the time of the exercise of the option. If either of IFC or IDC does not exercise its options, the other will have a right of first refusal over that option.

Under the CoA, the Tailings Exploitation Rights to the Project are to be transferred to KMT. CMD is to own 82.5% of KMT and Gécamines and GDRC are to own 12.5% and 5.0% respectively. Two payments totaling \$15,000,000 will be made by KMT to Gécamines as consideration for the Tailings Exploitation Rights. The first instalment of \$5,000,000 will be made at the time of the transfer of the Tailings Exploitation Rights and the second instalment of \$10,000,000 will be made following the completion of all financing arrangements for the Project. The \$15,000,000 is to be provided to KMT by CMD and/or IFC and IDC (or other participating parties) based on their pro rata ownership of the Project excluding Gécamines and GDRC's percentage ownership. Gécamines is to receive an annual dividend of the greater of its ordinary dividend and 2.5% of free cash flow (as defined) for each year from start-up until senior debt and subordinated loans have been fully reimbursed. Thereafter, Gécamines will be entitled to an annual dividend based on 10% of the average price realized for cobalt sold in a year in excess of \$10.00 (adjusted for inflation) per pound in addition to any ordinary dividend received by Gécamines, providing that ordinary dividends are paid in such year.

CMD and the participating parties are to complete feasibility studies, carry out an environmental impact study, draw up an environmental management plan and obtain commitments for financing the Project, all within a time period of three years and six months from transfer date of the mining rights. Preparatory work in connection with all of these activities began as soon as the CoA was initialled, but activity proper will only start once the CoA has been signed.

The Contract of Association was signed by all parties and KMT was incorporated after the end of the first quarter on March 23, 2004, and arrangements are in hand to transfer the Tailings Exploitation Rights to KMT.

Kipushi Project, DRC

It had been agreed with Gécamines during 2003 that finalising the CoA on the Kolwezi Tailings would be given priority over negotiating a revised framework agreement for the Kipushi Project to conform it to the new Mining Code and to reflect the Joint Venture Agreement between the Company and Kumba Base Metals. Once the Kolwezi CoA had been finalised during the first quarter of Financial Year 2004, preparatory work for the resumption of negotiations with Gécamines regarding the Kipushi Project was begun, and meetings scheduled for the second quarter. Once agreement on these revisions has been reached and necessary GDRC approvals have been obtained, the Company anticipates that the feasibility study will commence.

Angola Property

Discussions to finalize the texts of the comprehensive agreements that will define the governance of the joint venture continued during the quarter. Once these have been successfully completed and have received the necessary Angolan government approvals, it is envisaged that work will commence in 2004 on both evaluation of the Camutue exploitation licence area and preliminary exploration of the Cuango River Floodplain prospecting licence area.

Risk Factors

The risk factors affecting the Company are substantially unchanged from those disclosed in the annual Management's Discussion & Analysis contained in the Company's 2003 Annual Report.
